

VinaCapital VNMITECH ETF
(FUEMITEC)

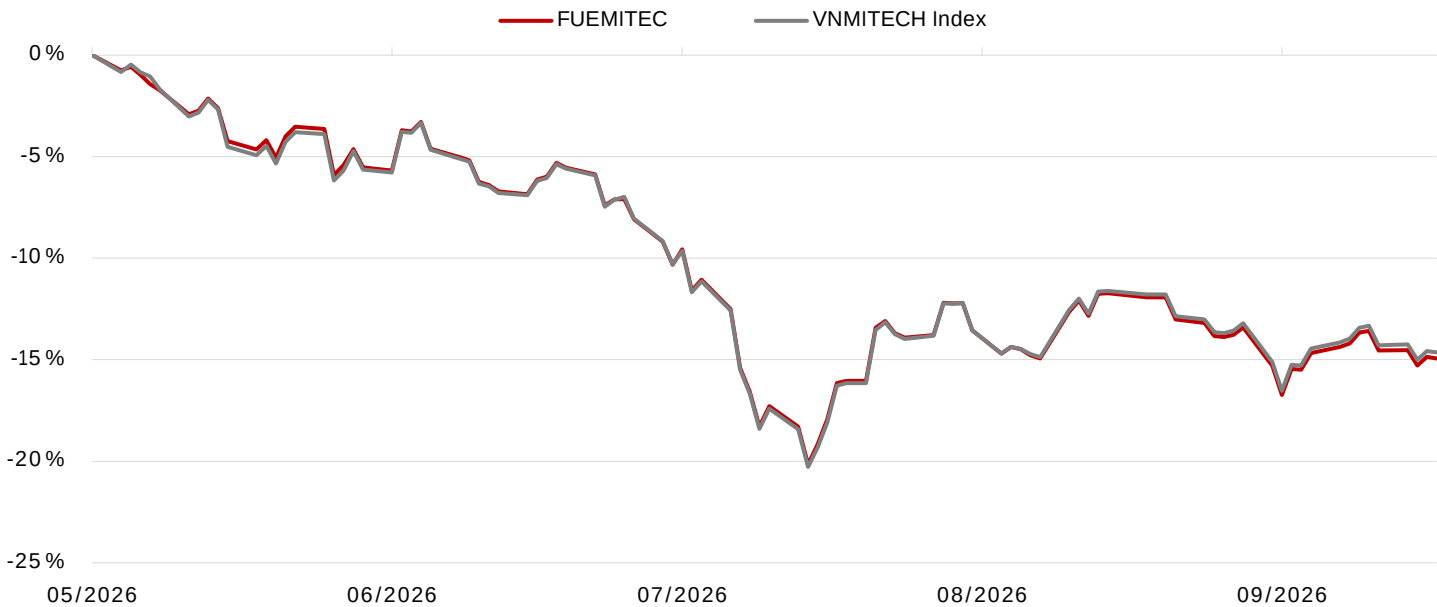

As of 30 September 2026

The VinaCapital VNMITECH ETF is an exchange-traded fund (ETF) designed to track the performance of the VNMITECH Index, developed by the Ho Chi Minh City Stock Exchange (HOSE). The ETF provides exposure to leading listed companies in the Industrials, Technology, and Materials sectors—industries expected to be the primary beneficiaries of Vietnam's next phase of economic development ("Vietnam 2.0") as the economy transitions from labor-cost competitiveness to productivity-led growth. This structural shift is driven by global supply chain diversification, accelerating infrastructure investment, and rapid technological adoption.

As a strategic-beta ETF, VNMITECH provides systematic, rules-based exposure to Vietnam's structural winners, targeting companies at the forefront of the country's next phase of economic modernization. Designed for investors seeking exposure to Vietnam's long-term growth mega-themes, the Fund combines liquidity, transparency, and disciplined portfolio construction to capture the upside of the evolving economic cycle.
